#### I. COURT COSTS

**LEGISLATIVE ITEM:** Add language to TCA 40-25-123 (a), *Payment of costs by defendant* — *Suspension of costs and litigation tax for indigent defendants*; Thereby, allowing Court Clerks to collect monies due without additional paperwork and manpower to default a criminal debt into a civil debt. A civil debt is collectable for up to 10 years and gives both the individual and the county the ability to pay or collect. This change will not alter or interfere with the judicial authority to waive costs to those who deserve consideration TCA 40-25-123 (b).

**PURPOSE:** This agenda item is requesting that all court costs passed on to any defendant would, by default (TCA), become a civil debt, not withstanding and recognizing the authority of the courts and the need from time to time for the court to address those defendants who deserve consideration, the waiving of court costs. Court costs are a county debt and for every dollar expended a partial recovery is possible through the collection of court costs. It might be noted; defendants who could be considered indigent today might not be indigent later and have the ability to pay the debt.

For more detailed information please contact the following individual: Commissioner Ron Sokol

#### II. JUVENILE CUSTODY PROGRAM

**LEGISLATIVE ITEM:** Encourage the continued support and annual financial budgeting of Juvenile Custody Prevention Programs in Tennessee (Genesis Teen Learning Center of Montgomery County)

**PURPOSE:** The Genesis Teen Learning Center gives troubled/problem juveniles the chance to stay in school or to obtain their GED/High School Diploma. The program also accepts students permanently expelled for zero tolerance, while reducing the chance for additional crime, saving the state of Tennessee the cost of housing these juveniles. Putting an end to this funding would literally double the expense to the state, along with increasing the current problem of placing juveniles in state programs. Your assistance with the continued funding of this program would be greatly appreciated by the courts and the citizens of Montgomery County.

During the 2009-2010 school year over 97% of students served by this program remained out of state's custody, and 89% of those discharged from the program were discharged successfully. The center graduated two students with regular High School Diplomas and 12 students received their GED. In addition, four of the aftercare students graduated and 13 students were successfully transitioned to the public school system.

For more detailed information please contact the following individual: Commissioner John Genis

#### III. MOTORCYCLE PASSENGER SAFETY ACT

**LEGISLATIVE ITEM:** To support the development and expansion of a Motorcycle Passenger Safety Act in Tennessee. There are no age or safety restrictions (except must wear helmet) on passengers of motorcycles in the state of Tennessee.

**PURPOSE**: Montgomery County strongly urges the support for a review of the current motorcycle safety measures, specifically focusing on passenger safety. Items of concern include: proper passenger seating such as children riding in front of the driver: the rear passenger having no seat or back support; passengers being able to touch foot pegs for stabilization and safety; or restrictions such as a child's ability to entirely wrap their arms around the adult driver.

Tennessee has done an excellent job ensuring the safety of passengers in motor vehicles, now is the time to review motorcycle roadway safety rules and guidelines to help guarantee safety for our motorcycle riders.

For more detailed information please contact the following individual: Commissioner John Genis

#### IV. STATE PARKS/NATURAL AREAS

LEGISLATIVE ITEM A request to our state delegation for assistance in the further development of Port Royal State Park

**PURPOSE:** Montgomery County Government recognizes Port Royal State Park as a significant cultural, historical, and recreational asset for our community. The park's potential to be further developed, highlighting its significant role in our nation's history as a part of the Trail of Tears, has not occurred.

We would like to request TDOT and TDEC construction funding of a pedestrian bridge connecting the existing park to 15 additional acres of the park, located on the north side of the river, to allow for the development of the existing Indian burial grounds.

For more detailed information please contact the following individual: Commissioner Mark Riggins.

#### V. EDUCATION

**LEGISLATIVE ITEM:** Support a change in the CBER and TACIR formulas that determine a counties fiscal capacity to credit the county for the share of property tax used for new school construction and/or school renovations.

PURPOSE: Fiscal Capacity is the potential ability of local governments to fund education from their own taxable sources relative to the number of students. The new CBER (Center for Business and Economic Research) model and the TACIR (Tennessee Advisory Commission of Intergovernmental Relations) model are used to determine a counties capacity to raise local revenues for education from its property and sales tax base. One of the variables used in these formulas is the three year average of property tax spent on education taken from the Department of Education's Annual Statistical Report. However, this figure only takes into account the property tax allocated for the school system's operational budget. It does not include the amount of property tax allocated to a county's debt service fund to cover new school construction and or major school renovations. As a result, the fiscal capacity of a county that invests in new schools is undervalued in both formulas which can result in a reduction in BEP funding. As of FY 2009-10, the Clarksville Montgomery County School System's BEP funding has been reduced by approximately \$843,000 dollars based on its projected fiscal capacity using the TACIR formula and \$729,000 dollars using the new CBER formula.

In Montgomery County, the school system's share of the current property tax rate for operations is .968 cents. The share of the property tax rate for the Debt Service Fund is \$1.026. However, .73 cents of the \$1.026 is directly related to new school construction. Using the CBER and TACIR Models, the .968 figure is used as the measure of the counties expenditure for education; when, in fact, the county has actually invested an additional .73 cents in educational funding for new and renovated schools. Thus, the counties actual education related expenditures are \$1.698.

For more detailed information please contact the following individuals: Commissioner Mark Riggins, or Danny Grant, Clarksville-Montgomery County School System Chief Financial Officer

#### VI. VETERANS' CONCERNS

**LEGISLATIVE ITEM:** Support and actively advocate for the continued fast tracking of the approved Veterans Community Living Center in Montgomery County, Tennessee.

**PURPOSE:** The U.S. Department of Veterans' Affairs has approved a veterans' home for construction in FY2011-FY2012 to support Fort Campbell, the third largest military installation in the Army, and the largest retiree population in the state. A veterans' community living center in Montgomery County would be an enormous advantage to the region's more than 73,000 retirees and veterans. The veterans' home will provide the required assistance and improve the overall quality of life after retirement.

New property has been purchased and is in the name of Montgomery County.

For more detailed information please contact the following individual: Commissioner Robert Nichols

#### VII. STRENGTHEN EXISTING DRUG OFFENSES

**LEGISLATIVE ITEM:** Encourage legislative body to support the recent DEA banning of the sale of "Bath Salt" type products and make the importation, manufacturing, distribution and use of such products a criminal felony offense.

**PURPOSE:** Increased availability of products containing mephedrone, methylenedioxypyrovalerone (MDPV) and methylone have recently been banned by the DEA for one year. Stronger penalties need to be used to stop the importation, manufacturing and selling of any "product" that contains these substances or derivative thereof. Presently, violation of Tennessee Code Annotated § 39-47-438 is only a Class A misdemeanor.

By following the new Federal Government guidelines, Montgomery County citizens will be protected from the harmful effects of the illegal use of these products.

For more detailed information please contact the following individual: Commissioner Jeremy Bowles

#### VIII. HIGHWAY TRANSPORTATION

**LEGISLATIVE ITEM:** Secure funding by the Tennessee Department of Transportation for the following projects:

- \* Utility relocation and construction phase for SR112/US41-A from SR76 to McAdoo Creek Road at approximately \$14,000,000.
- \* Utility relocation and construction phase for SR374/Warfield Blvd. from Dunbar Cave Road to Stokes Road at approximately \$20,000,000.
- \* Engineering/Environmental phase for SR48/Trenton Road from SR13/Wilma Rudolph to SR236/Tiny Town Road at approximately \$1,300,000.

**PURPOSE:** Support the Region's and State's economic vitality by enabling competitiveness, productivity and efficiency. Increase the safety and security of the transportation system. Protect and enhance the environment, promote energy conservation, improve air quality and overall quality of life.

For more detailed information please contact the following individuals: Mayor Carolyn Bowers, or Stan Williams, Metropolitan Planning Organization

## IV. STATE FUNDING FOR LOCAL GOVERNMENT

**LEGISLATIVE ITEM:** Fully support the continued funding of all state shared taxing, Stimulus and BEP funding, including current recommendations of the BEP review committee reported to the Governor, which benefit Montgomery County Government and our citizens.

**PURPOSE:** The current revenue sharing partnership and equitable funding relationship enables Montgomery County Government to provide essential services and basic mandated funding requirements to our citizens, students and constituents. Any reduction or compromise to full funding of these services and programs directly result in reduced effectiveness and would require substantial increases in local taxes. Increased financial stress is placed on the local government when full funding is restricted, reduced, or delayed.

Local tax resources are currently at a maximum, supplementing the inequity of state funding to provide mandated fundamental services such as: public education, public safety, correctional facilities, emergency services and transportation funding.

For more detailed information please contact the following individual: Mayor Carolyn Bowers

#### X: I-24 EXITS - SAFETY UPGRADES

**LEGISLATIVE ITEM:** Encourage the acceleration of upgrades to I-24 Clarksville exit ramps for public safety.

**PURPOSE:** (1) This agenda item is requesting a re-evaluation at Exit 8, Rossview Road, on I-24 during peak travel time with another safety audit. The recent improvements by TDOT are greatly appreciated, unfortunately, this effort did not alleviate the safety concerns or the congestion problems on the ramps, interstate, and Rossview Road. The first audit was performed when local schools were on spring break. The majority of congestion occurs during morning and afternoon commute to and from three schools located on Rossview Road.

PURPOSE: (2) Request that Federal Project No: HSIP-13(39), PIN No: 112826.0 be expedited. The contract was fully executed on January 25, 2011. There has been no visible work or improvements to the intersection of SR13 at Alfred Thun Road by TDOT. The project calls for the installation of a traffic signal and the timing synchronized with the light at Exit 4 from I-24. Since January 2011 this area has experienced a massive increase in traffic on SR13 with the construction of the Hemlock Semiconductor plant and return of Ft. Campbell's deployments. We are very much in need of TDOT's effort to expedite this project.

## TCSA 2012 Legislative Platform

**General Legislative Policy Statement** 

The Tennessee County Services Association, and its affiliates, the Tennessee Association of County Mayors, Tennessee County Commissioners Association and Tennessee County Highway Officials Association, generally oppose legislation which has the effect of imposing additional unfunded mandates on Tennessee's 95 county governments, or which further erodes the narrow tax base currently available to Tennessee counties. Further, the association and its affiliates will defend against intrusions into the limited local autonomy vested in county governments. TCSA will support the legislative platforms of its affiliates when they promote the mutual missions of our affiliate associations.

General Economic Conditions & Local Mandates

TCSA recognizes the increasing stresses being placed on the state budget and the difficulty the General Assembly has in continuing the state's current level of services and programs to all Tennesseans, including those state services provided by local governments, in today's economic environment. TCSA asks that the legislature recognize that local governments have similar stresses with their budgets and local revenue streams. Additionally, there is a serious lack of flexibility in meeting basic mandated funding requirements. To this end, we ask that the General Assembly refrain from further limiting the ability of county legislative bodies to use local revenue streams for purposes deemed most appropriate by the county governing body and from further increasing the fiscal burdens of counties through passage of unfunded mandates. TCSA continues to support the protection of the local tax base and any additional federal and state revenue sources available to Tennessee county governments. Counties oppose any proposal that either erodes an already limited tax base or necessitates subsequent local tax increases to implement an unfunded mandate. The association also opposes the earmarking of local revenue sources for specific purposes or any other measure that restricts the ability of county officials to make budgetary decisions based on local needs and priorities as determined by the local governing body.

Because of the economic conditions that are causing funding availability issues for local governments, TCSA is asking the Legislature to begin the process of restoring funds (i.e. the solid waste tire program, etc.) to the programs for which they were originally collected. At a minimum, the redirection of those funds should not be extended beyond the current fiscal year before irreparable damage is done to those important programs and local governments are further forced to use local revenues to fund state-mandated services without state assistance.

Further, TCSA asks the Administration and General Assembly to be protective of local services by local governments as we wait on improved state revenue forecasts and as the federal government continues its current budget review process.

**Education Funding** 

TCSA will continue to support full funding of all portions of the Basic Education Program (BEP), including the annual inflationary growth in both state and local match portions of the BEP formula, including the capital outlay component of the formula. TCSA will continue to work with the Administration and General Assembly to demonstrate the funding commitments Tennessee counties make in BEP local funding match requirements as well as through educational capital budgeting and related debt service payments that are outside the BEP formula. This long-term county government funding commitment includes hundreds of millions of dollars budgeted annually above and beyond the BEP for teachers and administrators deemed necessary by the local school system and county legislative body. Meanwhile, TCSA supports the restoration of recurring funding for non-BEP programs (Safe Schools, Internet Connectivity and Coordinated School Health, etc.) that have been funded during the past few years using one-time monies.

Meanwhile, TCSA asks that the state extend to 12 months its portion of health insurance costs for local educators as directed by the BEP formula. According to the State Comptroller, the state currently only funds its share of the total cost for 10 months of insurance coverage, rather than a full 12-month period.

Jails and Correctional Facilities

TCSA maintains its long-standing position that the \$35 per day "per diem" for housing state prisoners in local jails is inadequate reimbursement for funding the total cost of housing such prisoners. The association, through the work of its Jail Cost Management Committee, hopes to initiate discussions with the new Administration and legislature on a funding mechanism that one day will better reflect the actual cost of providing this service for the state. While legislative efforts last year streamlined the paperwork process, it is hoped that the Legislature will consider further actions that will directly lessen the financial burden that is borne on the county for housing those state inmates. TCSA urges lawmakers to authorize new cost saving measures to help reduce the financial burden, particularly rising inmate medical costs, that counties face in dealing with the cost of housing all prisoners. Meanwhile, TCSA asks the General Assembly to incorporate an annual Cost of Living Adjustment to the amount the state reimburses all local governments for housing state prisoners.

Transportation Infrastructure

The lack of funding for county highway projects has reached a critical point in Tennessee as state gasoline/fuel tax collections remain consistently stagnant, hovering at their lowest rates since FY2001-2002. County highway departments are continuing to scale back or cancel resurfacing projects and reduce staffing until additional revenues become available. As a part of the overall Tennessee transportation system, county roads and bridges are an integral part of the state's economic and community development success, the impact it has on safe and efficient transportation of school children, the essential element in providing emergency services to our taxpayers, and the daily life value it adds to the citizens of our counties. The vast majority of vehicle trips in Tennessee begins and ends on a road maintained by a local government. The association asks that the General Assembly recognize and support the important role county government highway departments play in the success of overall state transportation system. To that end, the association recognizes the efforts of state and federal lawmakers in helping stave off an effort to require every sign on a local road to be replaced at an estimated cost of more than \$50 million, a hardship that would have further financially damaged the ability of county highway departments to meet basic transportation needs in their communities. The association supports the policy of upgrading these road signs as existing ones are phased out, rather than the wholesale replacement across the entire road system.

#### Meth Labs

TCSA is appreciative of funding provided in last year's budget to help offset local costs related to the securing and cleanup of meth labs in Tennessee. Since February of last year, federal funding available to address these costs ran out and much of the burden of cleanup since that time has fallen on local governments. TCSA requests that the Legislature work with the various law enforcement entities and local governments to find a long-term sustainable and reliable funding mechanism to pay for the costs created by having to clean up and dispose of the hazardous and toxic materials left behind by this form of criminal activity.

Collective Bargaining

TCSA reaffirms its position in opposition to mandatory collective bargaining. Present law allows counties and cities, if they so desire, to bargain with local government employee unions. TCSA opposes any legislation which would officially recognize a labor organization's ability to enter into enforceable memorandums of understanding with local governments. Such legislation could result in demands by local government unions that would require property tax increases and result in work slowdowns and/or interruptions of essential services. TCSA is concerned about those burdensome costs associated with implementing collective bargaining agreements mandatorily on local governments.

**School Board Taxing Authority** 

TCSA opposes efforts to extend local taxing authority to school boards. Instead, the association recognizes K-12 education funding as a service of the entire community and, therefore, supports maintaining the existing taxing authority of the county legislative body. TCSA does not endorse the disruption of the current taxing system in those counties with special school districts already in place.

## 2012 LEGISLATIVE AGENDA

GNRC is the regional planning and economic development organization of the Region's 52 cities and 13 counties, and operates under the 1965 Tennessee Development District Act and 1988 Regional Authority State statutes. Mayors, county executives, minority representatives, and two members of the General Assembly makeup the membership of the GNRC policy board which deals with many common regional planning, growth, economic development needs, programs and services in the multi-county region.

This is the 23<sup>rd</sup> consecutive year that GNRC will adopt an Annual Legislative Agenda.

THE FOLLOWING IMPORTANT REGIONAL ISSUES AND NEEDS ARE BEING CONSIDERED FOR ADOPTION BY THE EXECUTIVE COMMITTEE AS THE GNRC LEGISLATIVE AGENDA FOR THE COMING YEAR:

- SUPPORT PROGRAM FUNDING FOR THE TENNESSEE COMMISSION ON AGING AND DISABILITY AND GRNC AREA AGENCY ON AGING AND DISABILITY. These funds provide viable and necessary public guardianship services, home delivered meals, homemaker services, home and community based services, and senior center activities. State and federal funding needs to be increased in the area of capital resources for the expansion of existing senior citizens centers and the establishment of new senior citizens centers.
- SUPPORT CONTINUED FULL STATE FUNDING FOR GNRC FROM THE LEGISLATURE OF \$180,000 ANNUALLY IN COMPLIANCE WITH THE FUNDING FORMULA SET FORTH IN THE TENNESSEE DEVELOPMENT DISTRICT ACT OF 1965, AS AMENDED. These funds are allocated in the state budget process through the Tennessee Department of Economic and Community Development as pass-thru funding.
- FUNDING FOR PUBLIC INFRASTRUCTURE NEEDS. Support and encourage the Governor and the General Assembly to adequately fund local road, bridge water, wastewater, solid waste and other local public infrastructure projects and the establishment of a dedicated source of state funding for construction and operation of the commuter rail system and other viable public transportation options.
- PLANNING ASSISTANCE TO LOCAL GOVERNMENTS with the demise of the Local Planning Assistance office, GNRC along with the other eight (8) Development Districts and newly created individual and joint city and county full time planning offices and consultants stepped up and took over this service. The General Assembly appropriated transition dollars to cities and counties with local planning contracts to urge the move from a state backed program to one funded totally by local dollars. Many of these cities and counties still need this financial assistance in order to keep a viable planning program and GNRC urges the governor and General Assembly to continue those city and county assistance funds and consider making them a reoccurring budget item.
- SUPPORT THE RE-ESTABLISHMENT OF A STATE PLANNING OFFICE which would address statewide issues and policies and would assist in the coordination of state actions and programs among the different departments and with local governments and development districts.

DRAFT

## 2012 LEGISLATIVE AGENDA

(Continued)

- SUPPORT INCREASED FUNDING FOR STATE PRISONERS HELD IN LOCAL JAILS. County sheriffs should strive for cost containment and effective utilization of monies received from local county commissions for the housing of prisoners. At the same time, county jails house state prisoners at a time when jail space is limited, personnel costs are increasing, and medical costs for prisoners is sharply increasing. We urge the governor and general assembly to increase the state payment for state prisoners housed in county facilities, count as state prisoners people detained awaiting parole violation hearings, pay for pretrial detention of state prisoners and assist in cost of medical treatment for these prisoners. The state should support, encourage and facilitate regional jail systems to save local and state dollars.
- SUPPORT CHANGES TO PUBLIC CHAPTER 1101 GROWTH PLANNING LEGISLATION that clarify certain processes and requirements.
- SUPPORT ADDITIONAL PLANNING ENABLING LEGISLATION. Support adoption of planning legislation to assist cities and counties in implementing their growth plans, comprehensive and general plans, subdivision regulation and zoning.
- **ENCOURAGE THE CONTINUED SUPPORT** of the Housing Trust Fund which is the source of the Emergency Home Repair program and other additional, flexible programs that provide housing for the people that need it the most. This money is over and above the HUD money that we use for HOME.
- SUPPORT LEGISLATION to enhance local governments' revenue options.
- ALLOW PUBLIC HEARING, PUBLIC MEETING AND OTHER PUBLIC NOTICES such as but not limited to job openings to be published on websites of governmental entities in lieu of in newspapers.
- SUPPORT FULL FUNDING of the Basic Education Program.
- SUPPORT EXPANDED SCOPE AND PROGRAM OPTIONS for State's Community College System.
- SUPPORT LEGISLATION OF REGIONAL CONCERN AS IDENTIFIED by GNRC member city and county governments as it is filed for consideration by the second session of the 107<sup>th</sup> Tennessee General Assembly.

**Subject:** Dear Jimmy,

Thank you for your request for more information.

FACT--"Sales taxes are a critical source of funding for many cities, typically second only to property taxes. They accounted for 23% of all U.S. State and Local Tax Collection in 2008, the latest year available," found in the June 8, 2011, Wall Street Journal article, written by Miguel Bustillo and Kris Hudson.

Since Sales Tax Collections are a critical source of funding in Clarksville/Montgomery County, we are thankful to all the residents, soldiers, industry/businesses, APSU students and contractors that continue to "Shop and Buy Locally".

Our local leadership acknowledges the value of living, working, raising their family, going to church and shopping in Clarksville/Montgomery County. We celebrate and are thankful that our TN State and National Leadership also recognize the treasure of living in Clarksville/Montgomery County.

In the United States, the "Great Recession" began in December, 2007. However, our continued growth and strong economic numbers in our housing market, the veterans, soldiers and their families, the churches, businesses and industries and the high quality education found at APSU, CMCSS are contributing factors to Clarksville/Montgomery County's economic success. Please see the following information that tells Clarksville/Montgomery County's economic story best:

First Quarter, 2011-4/4&13/11 WSJ called the US Economy "The Incredible Shrinking Recovery"-The US Economy appears to have grown by little more than 1.5% in the 1st Qtr., well below the 4% annualized most expected back in it is no coincidence that bank earnings have been retreating as well. Inflation/Stagflation, in the 3 months ending Feb., 2011, was running at an annualized rate of 5.6% and does not come close to compensating Investors with their current low in WSJ-"Great Symbolic Blow" 8/5/11-America Gets Downgraded from AAA+ to AA+ by Standard & Poors-now 18 countries in the world have a better credit rating than the U.S.A.
